A source for economic insight like no other in the world. Our analytical approach helps you find the logic within the extraordinary and unprecedented shifts transforming every aspect of the global economy.

## THE LOGIC OF THE GLOBAL ECONOMY

### The RGE Approach

#### We use an unmatched range of inputs.

Sources you've never heard of and info you wouldn't otherwise find: from think tank sites and academic papers to Federal Reserve minutes and obscure investment bank reports. From the essential to esoteric, all accessible via embedded links and comprehensive indexing.

#### We find critical, often overlooked correlations.

Using extensive transnational comparisons, historical analogies and an array of proprietary methods, we unearth links between events and phenomena that others don't focus on—or simply don't see. We look everywhere in the world for signs of emerging fundamental shifts.

#### We explore concepts well beyond the consensus

Pure quantitative models are not flexible enough to accommodate unprecedented events. So first we focus on understanding the underlying variables and ideas, then see if current models bear them out. We never let any single analytical method limit our thinking.

#### We explain with clear, compelling logic.

RGE clients tell us that they readily understand our analysis. That's because our insights come with the step-by-step logic we used to reach our conclusions. Our clients always know "how we got there" and why.

#### We deliver prescriptive insight.

Our diverse and growing analyst team—along with our extensive community of economists—helps you formulate clear and compelling points of view that lay the foundation for action. This is especially valuable to clients with lean and nimble staffs.

### Benefit

You won't hunt for insights and sources.

You'll see transformational influences as they emerge.

You'll develop alternative ways of thinking through the issues.

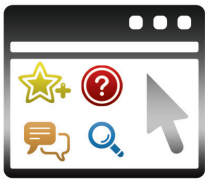

You'll quickly and efficiently gain a commanding view of variables and dynamics.

You'll strengthen your ability to take decisive action.

## THE 3 DIMENSIONS OF RGE SERVICE

Now you can access the team, resources and infrastructure that Nouriel Roubini built to help shape his view of global economics.

### Deep Coverage

#### Global Economy on Your Desktop

All subscribers gain access to RGE's web-based resources at [roubini.com](http://roubini.com). Through this comprehensive tool, you'll find a wealth of insight, opinion and advice from every economy and every corner of the world.

#### Critical Issues

Critical Issues draw on the best available data and views from various sources ... not just RGE. They fuel our internal debates and provide the holistic view our clients value. While Critical Issues are opinion-based, you will find them embedded in Briefings, which provide a deeper, fact-based analysis of the history and context of the issues of the day.

#### Building Correlations

Using RGE's unique Add a Topic/ Country feature, you can cross reference topics and geographies to uncover critical correlations between markets and issues.

#### Deep Search

Powered by our proprietary information taxonomy, deep searches into topics, issues, regions, countries and economies are done quickly and easily.

#### EconoMonitors

Seeking out and examining a range of perspectives is central to the RGE Approach. Our EconoMonitors - the RGE expert blogosphere - draws together opinion and insight from the finest minds in economics and finance.

### Dynamic Tracking

#### Real Time Information

RGE analysts keep you up to speed on critical economic issues. Information is delivered in daily updates, weekly summaries, monthly reviews and special reports.

#### Daily Alerts

A daily dose of bite-size information on five developments shaping global markets right now. A quick read, much to think about.

#### Weekly Briefings

A mid-week email on one critical issue that demands an in-depth look and deeper understanding.

#### Roundups & Reviews

The Weekly Round up is a Friday email that takes a comprehensive look back at key events of the week and how they impact the next. The Monthly Review is a compendium of twenty briefings covering a range of developments that defined the month.

#### Special Reports

RGE special reports leverage a massive array of sources to reveal correlations not found anywhere else.

### Direct Access

#### Direct Analyst Access

With Direct Access, clients work directly with RGE analysts to generate scenarios and ideas, identify risk, and validate your initiatives.

#### Conference Calls

Live group discussions with analysts that give you context around particularly complex market forces.

#### Direct Access

In live sessions with clients we share world-class knowledge to assist in idea generation, risk identification, and validation of client initiatives.

#### Ask an Analyst

Working with your team and need to bounce an idea off an expert? No problem. Premium subscribers can schedule a call with one of our analysts.

#### Site Visits

There's nothing like in-person collaboration. Direct Access clients can schedule site visits with our analysts for more extensive work sessions.

#### Events

RGE analysts host live events in cities around the world throughout the year.
